Thousands of parts. Just one hub.

Automechanika Dubai - a show that you cannot miss!

As the largest international automotive aftermarket trade show in the Middle East, Automechanika Dubai serves some of the largest automotive markets such as Saudi Arabia and Iran. The show also acts as the central trading link for markets that are difficult to reach connecting the wider Middle East, Africa, Asia and key CIS countries.

Now in its 17th edition, the exhibition offers trade professionals the unique opportunity to have face-to-face meetings with over 1,800 international exhibitors and will be held from 10 – 12 June 2019.

6 Diverse Product Sections

View and experience first-hand A-Z of the automotive aftermarket products spread across six distinct product sections

Automechanika Dubai is unique with regard to breadth and depth of product range. No other show in the wider Middle East covers the full range of products and services available in the automotive aftermarket industry.

Parts & Components

Come face-to-face with hundreds of relevant brands and companies, view live demonstrations, ask the questions that matter and get the answers and deals that can take your business to the next level.

Electronics & Systems

Gear up for greater opportunities in the areas of engine electronics, vehicle lighting, driver assistance and security, and a great deal more.

Accessories & Customizing

Here you will discover an entire universe of aftermarket products and solutions – and even an specialized section dedicated to the latest product and service innovations in car accessories, special equipment, tuning, performance systems and vehicle design upgrades.

Tires & Batteries

Nobody understands what Tires & Batteries industry professionals are looking for better than Automechanika Dubai. That's why the show attracts exhibitors who present the most relevant and extensive range of products and solutions that meet our trade visitors' needs specifically – visitors like yourself!

Car Wash, Care & Reconditioning

The climate conditions in the Middle East make more frequent car care necessary than elsewhere. In the past, manual car wash was popular, however, the rising cost of manual labour and tightening of the labour laws continually increase the demand for automated car washing systems

Repair & Maintenance

Ramp up your repairs and maintenance business to a higher level by finding state-of-the-art equipment which is becoming increasingly important for the repair segment
